The Declaration of Geneva (Modified)

At the time of being admitted as a member of the medical profession:
I solemnly pledge myself to consecrate my life to the service of humanity;
I will give to my teachers the respect and gratitude which is their due;
I will practice my profession with conscience and dignity;
The health of my patient will be my first consideration;
I will respect the secrets which are confided in me;
I will maintain, by all the means in my power, the honor and the noble
traditions of the medical profession;
I will not permit consideration of religion, nationality, race, party
politics or social standing to intervene between my duty and my patient;
I will maintain the utmost respect for human life, even under threat;
I will not use my medical knowledge contrary to the laws of humanity;
I make these promises solemnly, freely, and upon my honor.
